DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6/10/2010 has been entered.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 15-28 are cancelled.

Reason for Allowance

The following is an examiner's statement of reasons for allowance: The prior art fail to teach or suggest a lead terminal for electrically connecting a first connected body and a second connected body, the lead terminal comprising: a welding portion in which electricity is caused to flow in the state caused to be in contact with an external terminal of the first connected body so that the welding portion is resistance-welded to the external terminal of the first connected body;

a connecting portion connected to an external terminal of the second connected body; and a conductive portion positioned between the welding portion and the connecting portion, and serving to allow these portions to electrically conduct, wherein the lead terminal is a laminated material having at least a first conductive layer of a first conductivity and a second conductive layer of a second conductivity, and wherein the welding portion is constituted only by the first conductive layer that has a lower conductivity than the second conductive layer, and wherein the welding portion is formed so that its thickness is thinner than thickness of the conductive portion.

Election/Restrictions

Claim 1 directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 10-14, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, claims 10-14 hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because these claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement for claims 10-14 as set forth in the Office action mailed on 9/3/09 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is

withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to JANE RHEE whose telephone number is (571)272-1499. The examiner can normally be reached on M-F 9-6.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Patrick Ryan can be reached on 571-272-1292. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
